LONDON SKATING CLUB

Learn for Fun. Live to Skate. Skate for Life.

A Skate Canada member club since 1907.

Canskate Program Descriptions:

CanSkate is Skate Canada's flagship learn to skate program designed for beginners aged 3 to adult. The program focuses on fun, participation and basic skill development.

The CanSkate curriculum focuses on balance, control and agility skills taught over 6 stages of learning. Skaters are placed into groups according to their age, skating ability, and the stage(s) they are working on. Skills are assessed on a continuous basis, with badges/ribbons awarded when all skills at a particular stage have been achieved.

All CanSkate programs are taught in group format by National Coaching Certification Program (NCCP) certified Skate Canada coaches.

CanSkate Qualifications:

PreCanSkate is a learn to skate program for children 3 to 5 years of age, with little or no skating experience who have no badges/ribbons completed in the CanSkate program. Skaters are introduced to the basics of skating in a fun, friendly manner. Session includes a short off-ice warm-up to further develop the skating fundamentals. Skaters progress directly into the main CanSkate program upon mastering the PreCanSkate skills. *CSA approved hockey helmets are MANDATORY and face masks are highly recommended.*

CanSkate is a learn to skate program for skaters aged 5 and up who have not passed Stage 6 of CanSkate, and skaters aged 3 & 4 who have passed PreCanSkate. *CSA approved hockey helmets are MANDATORY and face masks are highly recommended for ALL CanSkate sessions (including Adults/Teens) until completion of CanSkate Stage 5.*

- Upon completing Stage 3, skaters can enrol into the CanPowerSkate program.
- Upon completing Stage 4, skaters can choose to remain on their CanSkate session to complete Stage 5 & 6 OR they may complete Stage 5 & 6 during the STARSkate sessions as indicated on the schedule.

Adult/Teen CanSkate is for beginner skaters aged 14 and up, interested in developing skating skills for recreational skating/exercise, or for eventually playing hockey or figure skating. Adults/teens will share the ice with youth CanSkate BUT will be placed in their own group. Adult/Teens may participate in other CanSkate sessions for their level but will be placed in groups with children unless specifically stated as an adult/teen group on the schedule. *CSA approved hockey helmets are MANDATORY and face masks are highly recommended for ALL CanSkate sessions (including Adults/Teens) until completion of CanSkate Stage 5.*

CanPowerSkate Program Descriptions:

The CanPowerSkate program consists of skills divided into three broad stages of development, arranged in progression with gradual increase in complexity. This program is divided into **IntroPower**, **AdvancedPower** and **ElitePower**.

Players are evaluated based on skills (balance, control and agility) as well as their timed performance of a speed-based test.

Players receive a mark combining their skill performance plus test time. This determines whether the player receives a Bronze, Silver or Gold award.

CanPowerSkate is taught in group format by NCCP CanPowerSkate certified professional coach, Paul McLean.

IntroPower helps develop basic skating abilities in a power skating environment, including balance skills, forward and backward skating, stopping, turning and agility skills. The curriculum is presented in three progressive stages complete with awards to encourage participation and motivate players.

AdvancedPower focuses on balance, control and agility through proper body alignment and movement for improved balance and stronger edges.

ElitePower focuses on acquisition of efficient technique including the technical aspects of stride and acceleration to improve speed and agility. This final stage incorporates stick handling with the puck/ring.

CanPowerSkate Qualifications:

IntroPower is for players aged 7 and under (Initiation Program and Minor Novice) who are learning how to skate and are looking to improve their hockey or ringette experience. This program is for players who have completed CanSkate Stage 3 or have basic forward and backward skating skills (able to skate the length of the rink using alternate strides) and are able to stop without use of the boards. If a player does not meet this skating requirement, we recommend enrolling them into the CanSkate program. *CSA approved hockey helmets are MANDATORY and face masks are highly recommended.*

AdvancedPower is geared towards players 8 to 10 years of age (Major Novice to Major Atom) who are able to glide forwards and backwards on one foot, turn forwards to backwards while skating and stop. If a player does not meet this skating requirement, we recommend enrolling them into the IntroPower program. *Full CSA approved hockey/ringette equipment required, including stick, helmet and neck guard.*

ElitePower is for players aged 11 and up (Minor Peewee and up) who are proficient at executing the following skating skills with speed, gliding forwards and backwards on one foot, turning forwards to backwards and stopping. *Full CSA approved hockey/ringette equipment required, including stick, helmet and neck guard.*

STARSkate Program Description:

The **STARSkate** program is a recreational figure skating program. The program consists of skaters with a wide range of skating skills starting from first transitioning from the CanSkate program to advanced figure skating techniques.

Skaters are encouraged to move from the CanSkate program to the STARSkate program if they are interested in further developing their skating and figure skating skills. Though the focus of this program is having fun, staying fit and developing figure skating skills, skaters can still choose to have private lessons from professional coaches, progress through the Skate Canada nationally standardized STAR Assessment system and enter a variety of competitions.

STARSkate offers opportunities for skaters of all ages to develop fundamental figure skating skills in the areas of ice dance, skating skills, freeskate and interpretive skating. Unique in Canada, this program teaches figure skating skills in a group and/or private lesson format in a progressive and sequential manner and includes specifically designed awards and incentives.

Adult STARSkate Program Description:

The Adult STARSkate Program is for adult skaters looking for an opportunity to stay fit, develop flexibility, and learn a lifelong skill. Included with the registration fee is a group stroking session conducted by a NCCP certified professional Skate Canada coach. Time is allotted for separate FreeSkate and Dance segments during the session. Group and private lessons are also available to all skaters from our coaches at a fee payable to the coach at the time of the lesson.

Adult STARSkate Qualifications:

Adult STARSkate is for skaters aged 17 and up, who have successfully completed STAR 2 Skills and/or STAR 3 Dance. Adult skaters with a current Skate Canada membership may also qualify to skate on any STARSkate session, contact the London Skating Club office for current session availability and qualifications.

SELECTSkate Program Description:

The SELECTSkate program is an accelerated learn to figure skate program for skaters aged 4 and up. Participation in this program is by invitation only through our talent ID process or through a coach recommendation. Parents may ask the convenor for an evaluation.

As part of the SELECTSkate program an off-ice portion is included. Off-ice sessions cover skating specific movements such as body alignment, arm and leg extension, jump technique, air position as well as mobility, fitness and flexibility. Off-ice sessions are mandatory.

Synchronicity Program Descriptions and Qualifications

Synchronized Skating Teams

A discipline of figure skating where you're a member of a team ranging from 8-20 skaters, depending on the category. Skaters of all levels and ages work together to perform a program/routine throughout the season at various competitions, while continually improving said program and building off feedback from the judges at the events they've competed in. This discipline is focused on having fun, making new friends, and teaching skaters the importance of working together to achieve a common goal. Many skaters develop friendships that last throughout their entire lifetime, as a result of joining the program. Fun, family, hard work, dedication, and passion are only a few of the traits you will find in a synchronized skater. The synchronized skating program provides skaters with many opportunities to advance their figure skating career, including attending the Ontario Provincial Championship and the Canadian National Synchronized Skating Championship, pending qualification each season.

Synchronicity fields teams from the Beginner level to the Adult level, with National level teams in between. We have a passionate, dedicated, and well-rounded coaching staff that works together to create an unforgettable experience for all skaters. We are always welcoming new skaters to the program and encourage anyone interested to reach out to us at Synchronicity@londonskatingclub.com.
